Oppiwallet

Account & Registration

How do I get started with the Oppi Wallet app?
First, download the Oppi Wallet app from the App Store or Google Play Store on your device. After installation, click on 'Create an Account' and once successfully created, click on 'Create a New Wallet'. Then backup your 12-word Recovery Phrase and store it securely. We also offer options to store your backup on iCloud and Google Cloud for added convenience.

How to create an account in Oppiwallet?
You can create an account in Oppiwallet via mobile app in which you'll get the register option. After successfully creating an account you can login via verified email.

I didn't receive the SMS or email verification code. What should I do?
After requesting an email verification code, check your mailbox and spam folder. If you still haven't received it, click the resend button. For SMS verification issues, click the resend button to receive another code. We also offer Telegram notifications as an alternative - go to Settings (top right corner), click on 'Connect with Telegram' and start. You'll then receive mobile OTP codes on Telegram as well.

I forgot my password. How can I reset it?
If you forget your password, you can reset it using your 12-word seed phrase. Simply click the 'Forgot Password' button, enter the seed phrases you received during wallet creation, set your new password, and save it.

How can I use my wallet on another device?
Install the app on your new device and choose 'I already have a wallet'. Click the import button to see your wallets, select your wallet, enter your seed phrase, and set up your face ID or PIN code to continue your crypto journey.

How can I login on the web ?
You can connect a mobile app with your web wallet by scanning a feature which is available on "Link device".

How can I logout from my account ?
Visit the settings tab and go to the last list you will find a logout button just click on it.
Note: before logging out from the application take backup of your wallet phrase.

I want to delete my account. How can I do that?
You can delete your account by going to the Settings option and selecting 'Delete Account' to permanently remove your account from Oppi Wallet.

What should users do to change their email address?
Users can not change email addresses in any case as it is primary in our app.

Where will the OTP come?
We are supporting telegram OTP and Text SMS for OTP verification . We recommend using telegram OTP in order to get confirmed delivery of messages .

Why am I not receiving OTP ?
If you do not receive OTP via Text SMS . Kindly use the telegram feature to get OTP there.

I have not received OTP for a week now. Please can you check?
Kindly try otp via telegram to get 100% sure SMS OTP delivery there.

I didn't receive the OTP code via email while trying to load funds onto my card. What could be the reason for this issue?
Kindly check spam if you received email there or not. You can also go to the security setting and change to other auth options like mobile OTP, telegram OTP etc.

Why am I not able to verify my KYC ?
We recommend using a photo of a real document, not a photo of a xerox copy of the document.By have fake documents , you will be rejected and might not get a chance to re verify it again.

KYC is being rejected multiple times
Kindly use the original documents photo.

My Kyc verification is still pending ?
Sometimes the verification process sticks because of poor image clarity. In such cases, we need to approve it manually from KYC service providers.

Completed KYC then deleted the account . Again not able to do KYC.
Once you delete an account, it is soft delete from the system. For hard delete contact to support the team.

I want to change phone number, and they kept sending code to old number
As per our logs, you have requested OTP from the same mobile number twice, also it seems you are not updating your number. You are adding it for the 1st time so you should contact our support team to remove OTP restrictions.

I'm trying to add my OppiWallet card to Apple Wallet, but I haven't received the Spend Card Verification Code. Please resend it or check if my card is correctly linked.
While you are connecting to the Oppi wallet card with the Apple wallet, Apple is sending OTP to your email. We are not handling this part . I suggest you check your spam folder. If not received there , try reattaching the card. Make sure you are attaching the correct card information in the Apple wallet.

Security & Recovery

I lost my seed phrase. Can I recover my account?
Unfortunately, if you lose your seed phrase, you cannot recover your account since Oppi Wallet is a fully decentralized wallet. If someone gains access to your seed phrase, they can easily access your funds. We strongly recommend storing your seed phrase in a secure place at all times.

How can I enable two-factor authentication (2FA)?
Go to the Settings option, then navigate to the Security menu. You will find the Google 2FA option there to enable two-factor authentication for enhanced security.

Does the virtual master card card support 3D Secure PIN or any other verification method?
Nope, the virtual mastercard of this bank does not support 3D secure PIN authorisation.

I noticed a suspicious transaction. What should I do?
If you find a suspicious transaction in your wallet. You can follow the process below.
Move Funds to a New Wallet (if possible) ⇒ Create a new wallet on another device and transfer all your funds to the new wallet ASAP.
Check What Happened ⇒ Use block explorer to review the suspicious transaction.Revoke **Suspicious Permissions** ⇒ Use https://revoke.cash or https://app.unrekt.net to revoke token approvals.
Learn and Avoid Future Risks ⇒ Don’t click random airdrops or connect to unknown DApps. Avoid scam DMs and links (especially on Discord, Telegram, Twitter). Never import your seed phrase into untrusted websites or extensions.

I lost my device. Can I still access my wallet?
Yes, you can recover your wallet using your seed phrase. Install the app on a new device, choose 'I already have a wallet', enter your seed phrase, and recover your wallet completely.

How secure is Oppi Wallet?
Oppi Wallet prioritizes security through multiple layers of protection. We recommend users store their seed phrase in a secure place, enable Google 2FA, and use face recognition when accessing the wallet app for maximum security.

I want to recover my wallet, but Google blocked access to it, and I can't do anything, please help.
Kindly update your app from the store with the latest version of the app.

I logged out of my Oppi wallet and now the app is asking for a recovery/seed phrase which I do not have. Please advise if there is any way to recover my account using KYC (ID, BVN, phone number, email) or other means ?
As we are fully decentralised, we are not controlling the user's funds or wallets. You must need recovery seeds in order to recover your account.

Crypto Transactions

How can I deposit crypto into my wallet?
First, you need to add tokens/coins to your Top Coins list. Click on the coin you want to deposit and choose the receive option. You can use the provided address or QR code to deposit crypto into your wallet.

Which networks are supported for sending and receiving crypto?
We support TRX, BSC, POLYGON, ETH networks as well as all other native coin networks for comprehensive cryptocurrency transactions.

A friend sent me USDT, but I haven't received it. What should I do?
We recommend the user to wait for 2 hours in general to get sent USDT. If you still do not get it, you need to ask your friend for a Hash ID and check it in an explorer like https://tronscan.org/ or https://etherscan.io/. Please verify the network - if your friend sent USDT on a different network than expected, you might lose the tokens.

I deposited USDC on my Oppiwallet address but it is not showing in coins.
If you cannot see the USDC coin on home page, then you have to manually enable that token while visiting >> home page >> go to bottom > > click on ADD CURRENCY >> Search your coin name >> and click enable.

How can I withdraw my crypto currencies like USDT tron , USDT trx, BTC and more from Oppi wallet ?
You can withdraw any supported cryptocurrency or network from Oppi Wallet, including
USDT TRC20 (TRON), USDT ERC20 (Ethereum), BTC, ETH, and others.
Follow these steps to withdraw:
Go to the Home page and view all available coins.
Select the specific coin you want to withdraw (e.g., USDT TRC20 for TRON network or USDT ERC20 for Ethereum).
Tap the “Send” button.
Enter the withdrawal amount and the receiver’s wallet address.
Slide the Send button to continue.
Enter your PIN when prompted to confirm the withdrawal.
Notes:
Make sure you select the correct network (e.g., TRC20 for USDT TRON).
You must have sufficient balance in the selected coin/network before withdrawing.
Always verify the receiver’s address to avoid loss of funds.

I transferred funds to the wrong network. Are my tokens lost?
Yes, you will lose your tokens if sent to the wrong network. Always double-check the network before making transfers.

What are the transaction fee rates in the wallet?
We do not charge any fees for TRON USDT transactions. Other transactions will incur standard network fees.

How can I decrease the transaction fees ?
Go to settings and enable the option "Autoless fees".

What is autoless fees?
When autoless fees is enabled in the user app, it will help to reduce USDT Tron transaction fees, that means users can withdraw USDT TRON tokens without having any TRX balance.

Is there any fee required for every network?
Yes ofcourse, every transaction execution needs gas fees.
For example : TRX needed for USDT Tron, ETH needed for ERC20 tokens.

What cryptocurrencies does Oppi Wallet support?
We support Bitcoin, Dogecoin, Litecoin, Ethereum, Matic, BNB, and all tokens supported on BSC, ETH, POLYGON, and TRX networks.

Is there a limit to how many cryptocurrencies I can store in the wallet?
No, there is no limit to the number of cryptocurrencies you can store in your Oppi Wallet.

Why is my transaction not showing in my history ?
You need to wait till the blockchain confirms the transaction.

I am having issues with the transaction. The transactions keep getting blocked . Also i can’t make any transactions on the account.
Kindly decrease your withdrawal amount and try again.

Can I download my transaction report ?
Yes, to download transaction history just visit transaction history page, you will see an download button on top right corner, you can download for single month only at a time

Swap / Exchange

I completed a swap but my balance hasn't updated.
Oppi swaps are available through third-party API providers, so swaps may require some time to process.

Can I add a custom token that's not on the default list?
Yes, you can. First, add the custom token to your coin list, then simply select it when making a swap.

Swap done but not received fund yet ?
Kindly allow a few hours to get confirmation from blockchain. If you do not get it , contact the support team.

If i swap in USDT and i have in my wallet USDT automatically Oppi convert in usd ?
We have a separate option for swapping modules.
Crypto to Crypto Swap = you can do crypto to crypto swap as well. We are using third party liquidity pool providers for this.
Buy / Sell Crypto = You can buy and sell crypto using fiat. We are using third party liquidity pool providers for this.

Can I change my card currency from $ (Dollar) to € (Euro) balance ?
Not possible, as our bank is hongkong based and supports HKD and USD.

Oppi Card & Virtual Card Usage

Why do I need to deposit funds before creating a card?
We have a small card creation fee that will be deducted from your wallet, so you need to fund your wallet initially to create a card.

How long does it take to create a card ?
The time it takes to create (issue) a card depends on the issuer's process like Identity & KYC verification , Card creation & activation. Typically it takes 5 min to 30 min.

Why am I not able to create a card? Tell me which countries are not supported for card creation ?
Restricted countries are Cuba, North Korea, Egypt, Iran, Myanmar, Nigeria, Russia, Ukraine, Venezuela, South Africa, Syria , Iraq , Belarus, Sudan, South Sudan, Libya, Crimea, Crimea (Ukraine), Burundi, Central African Republic, Somalia, Zimbabwe, Afghanistan, Bangladesh.

I am not able to create a card , it shows the mobile number is wrong ?
As this is a special case, I would like you to generate a ticket, so our technical team can solve this and get back with you with the same ticket.

I am not able to create cards. It shows the card holder already exists. What to do ?
As this is a special case, I would like you to generate a ticket, so our technical team can solve this and get back with you with the same ticket.

How to delete a card ?
Go to the card page, click on details button you will find an Delete card button just click on it read warning message properly.
Note: Make sure to withdraw all the amount from the card before deleting it, it cannot be reversed.

What does 'Initial recharge' mean and why is it required?
Initial recharge refers to the minimum deposit required for card creation to cover the card creation fees and ensure you have funds available for transactions.

What can I buy with the remaining $5 after creating the card?
You can buy anything with the remaining balance. Use your virtual card for online subscriptions, purchases, and various transactions.

How much transaction fees apply while card swipe or card usage ?
Oppi Card Transaction has a fixed rate which is 2% - 2.5% depending on card usage.

Where else can I use my Oppi Card outside the app?
You can use your Oppi card anywhere for subscriptions, online purchases, and other transactions just like a regular card.

How can I get a physical card ?
To get a physical card from OppiWallet, you'll need to create a card in the app. Make sure you have a minimum balance of $100 in your wallet, as a physical card creation requires 100 USD of fees.

How long does it take to create a physical card ?
Physical card creation can be possible instantly but delivery at your registered center depends on curious services. It might take 20-30 days depending on the country from which you applied for a physical card.

Can I get a free virtual card ?
Yes, you can create a free virtual card . We have 2 types of virtual cards. Visa and Master card. In visa cards, no topup is required to activate the card but in master card, you need to topup with 10 USD atleast and get 10 USD balance to activate the master card.

Is there any Fee or Minimum Charges Requirement for creating Virtual cards ?
We provide 1st card for new users without any cost but 2nd card onwards, we charge 3 USD per virtual card.

Can I use the virtual card for online shopping?
Yes, you can use the virtual card for online shopping and purchases.

Does virtual card support Apple Pay ?
Apple Pay does support a Master Card but Apple Pay does not support a Visa Card.

I am not able to use the card in Apple pay ?
Our master card supports apple pay and google pay both . We suggest you rebind your card again.

Can I use the virtual card for Apple Music subscription?
Yes, you can use the virtual card for Apple Music and other subscription services.

Can users add the card to Google Wallet and make payments with it?
Yes, Virtual Master card supports google pay and apple pay both.

There are 3 different cards in the wallet. What are they used for?
We have 2 virtual cards: one requires KYC with fewer usage restrictions, another is a non-KYC card with more restrictions. We also offer a physical card option that requires application and will be delivered to your doorstep.

What types of payments can be made in the app?
Only crypto payments, as we are a decentralized crypto wallet solution.

Is there any monthly limitation on card usage ?
Nope, there is not any limit on monthly usage of cards.

Is there a minimum transaction requirement or threshold in card usage ?
Nope, there is no minimum transaction threshold in card usage.

Can I lock my card ?
Yes, you can lock your card just visit the card detail page, you will find a lock button, just click on it.

How to unlock the card ?
Just visit card details, you will find an unlock button just click on it.

I have two cards. Can I transfer the amount from the 1st card to the 2nd card?
Yes, you can transfer the amount from one card to another, just follow steps > visit card detail page, click on transfer button now select from card and to card, then enter amount to transfer and click on transfer button.
Note: make sure you have a sufficient amount in the card.

Why is my card transaction in processing status ?
If there is processing status on card transactions, you no need to worry. Your merchant already gets paid. This status is for processing between VISA and Oppi Wallet.

2 times balance deducted from card , how can i cancel one ?
Unfortunately, you can not cancel any transaction. Only your merchant can do this if he wants.

I made some top up on the card and deposited assets but the transaction is not yet successful. Kindly check it out
The transaction for topup failed in blockchain.

How can the user top-up this balance to the card ?
Go to the card detail page > click on topup button > on this you will see 2 options one for topup with referral and 2nd for topup with crypto.
Card topup showing pending ?
Maybe a transaction has failed on the blockchain side . You can try again later.

Pending card top up please assist.
If your transaction is in processing status , kindly wait a few more hours to get confirmation from blockchain or else contact the support team.

Trying to use a card but not working.
Oppi card works based on country and merchant. If a merchant allows global payment acceptance, it will work.

Cards, Transaction, Refunds

Successful refund but didn't reflect balance. Please have it checked.
Refund takes a few days because the refund amount first goes from merchant to visa and then visa to us.

I have not gotten a refund in my card back ?
Once the merchant releases the refund, it takes 8 working days to come to our end because funds come to the bank from the merchant and then bank to your card.

How can I get a refund of card topup fees ?
You need to submit a ticket for this and our support team will handle it within 3 to 4 working days.

My transactions are being failed, i tried using a different Visa card on the same and they went through successfully
Visa card usage totally depends on the country and merchants. If merchants are allowing global payment , our card will work.

Do you apply transaction fees for failed transactions ?
Yes, card applies failed transaction fees which is 0.5 USD per failed transaction.

Are there any fees associated with a declined transaction (for example, due to insufficient balance) ?
Yes, a declined transaction costs 0.5 USD per transaction.

When using the card for contactless payments (via Apple Pay / Google Pay), what is the transaction fee applied if the payment currency is different from the card's base currency?
If you use a card (via Apple Pay / Google Pay or otherwise) for a payment in a currency different from the card's base currency, you typically face below possible fee:
Currency conversion Fx fee - the cost of converting the foreign-currency transaction into your card's currency. According to sources, the card network (e.g., Visa/Mastercard) or your bank may charge about 1% - 2% of the transaction amount for the conversion.
So, in many cases the total extra fee might be 2% to 2.5% of the transaction amount.

I am facing an issue where every payment I make using my OPPI Visa card is declined by all merchants, yet the amount is still deducted from my balance.
This failed transaction amount is being deducted by VISA because of a failed attempt . A further failed attempt might block your card. Kindly be cautious while using your card.

Facing issue of top up from wallet to virtual card that the transaction is freezing.
Kindly kill the app and reopen again to try one more time.

Can I withdraw the balance from card to wallet ?
No. You can not withdraw balance from card to wallet but you can still do card to card, card to travel card.

How about balances for deleted cards ?
Only balances deposited via crypto (not bonus funds) will be eligible for refund and it will be stored in a referral wallet.

Amount has been deducted but the card has not been created yet ?
This might be an issue with KYC validation, we will look into and assign a card for you.

I have USDT but am not able to create a card ?
As you have USDT on networks rather than TRON , you still need Fees to execute that transaction same like any other cryptocurrencies. So make sure you have fees on specific networks like BNB , POL , ETH . If you have USDT in the TRX network , you do not need gas fees as we bare it from our energy pool.

Can the amount be transferred back to the wallet from the card ?
Nope, balance can not be transferred back to the wallet from the card.

Travel & Reservations

I paid for a hotel reservation set for the 30th. I didn't go—can I use it another time?
According to our cancellation policy, this depends entirely on the hotel. Some hotels offer full refunds if cancelled within 24 hours of booking, others provide partial refunds based on advance notice, while discounted rate bookings may have stricter no-refund policies. You can apply for cancellation and/or date change requests, and we'll respond with available options.

How can I book a flight with Oppi Wallet? Is there a quick guide?
Simply go to the Travel menu option in the footer right corner. It's very easy to book flights using your crypto wallet with our step-by-step process.

Will I receive any discount or cashback when booking a flight?
We don't currently have cashback or discount features, but our marketing team is working on bringing you the best suitable offers in the future.
Can I book a hotel with a travel card ?
Yes, you can book a hotel with your travel card .

I have cancelled the hotel / flight , but did not get a refund ?
You will receive a refund in your travel card in case of cancellation of hotel/flight.

Not able to find a desired hotel ?
We are showing almost all hotels globally. If you still do not get it , use an advanced filter and increase search range to 50 KM and explore more hotels.

Flight cancellation policy in duffel ?
Each hotel rate in the OPPI wallet includes a cancellation timeline, which outlines the refund policy based on the timing of the cancellation relative to the check-in date.
The possible scenarios are:
Fully Refundable: The full amount paid will be refunded if canceled within 24 hours.
Non-Refundable: No refund is available if canceled after 24 hours.

I booked a flight , but I want to cancel it.
Oppi flight CFAR(Cancellation for a reason) service allows customers to cancel their flight for any reason and receive a partial refund, subject to certain conditions:
Eligibility: CFAR must be purchased at the time of booking for all passengers and all segments of the flight.
Refund Process: To receive a refund, you must cancel your flight at least 24 hours before the scheduled departure by contacting the company through which the booking was made.
Refund Amount: Refunds are calculated based on the original flight purchase cost, excluding add-ons like baggage or seat selection.
Exclusions: CFAR does not cover cancellations due to airline-initiated changes, force majeure events, or direct cancellations with the airline.
Non-Insurance: CFAR is not a substitute for travel insurance

What happens if there is a change of schedule for my flight?
You will be notified via email about the schedule change of your booked flight.

Rewards & Referrals

How can users earn rewards with Oppi Wallet?
We have a refer and earn program for Oppi users. You earn rewards when you refer someone using your referral code.

My referrals or referral bonus are not showing in the app. What should I do?
You will see users in 'My Referrals' once they join using your referral code. You'll receive your referral bonus once they create their first card.

How can I invite a friend using Oppi Wallet?
Go to the Referral section and share your referral link via social media or personal chat apps, or copy and share your referral code directly.

What is a referral bonus ?
We are providing a 5 USD joining bonus and 5 USD referral bonus if you refer someone to use our app.

Can this referral balance be used other than to create a card?
Referral bonus can be used only for card creation and card topup, not any other things.

App Features

Is Oppi Wallet available on Android and iOS?
Yes, Oppi Wallet is available for both Android and iOS platforms.

What's the difference between the browser extension and the mobile app?
We don't have a browser extension. We have a web-based wallet with Send, Receive, Swap, Oppi Cards, and Business API modules, but it doesn't include flight and hotel booking features. The mobile app additionally includes flight and hotel booking modules.

Can I use a QR code to log in or make a transfer?
You can use the QR code on the receive screen to receive funds from other users. We also have a QR code option in the web-based wallet for login. Go to mobile app Settings > Connect Device to log into the web-based wallet.

How can I connect to DApps? (Note: Browser support will be added soon.)
When connecting Oppi Wallet to a DApp, the DApp will have an option to add a seed phrase. You need to enter your own seed phrases that were created during signup.

What can I do with the Oppi Wallet app, in short?
You can store, send, receive, and swap crypto with Oppi Wallet. You can also create crypto cards for shopping and online purchases, and book flights and hotels within the app. Oppi Wallet is the world's first decentralized wallet with all these integrated features.

How to change language ?
Open the app, now go to the home page you will find a setting icon on the top left corner click on it, now go to the bottom of the list you will find a text name Select Language click on it, now change you language as per your choice.

What kind of notifications are sent from telegram? / sending telegram notifications on features.
